

Recreational Diving Medicals

List of Diving Physicians in Tasmania

Tasmanian Divers will require a dive medical from anyone who submits a “yes” answer on the medical questionnaire. If you are required to complete a recreational diver medical, we suggest that you book an appointment as soon as possible. Usually, you can expect a wait time of 2 weeks or more.

PADI RSTC DIVE MEDICAL

Please note: PADI RSTC Dive Medical can be completed by any willing GP. When you call your GP, be sure to ask for a recreational diving medical. Not all GP's will be willing to complete this, so ensure you ask first. For this reason, we highly recommend the SPUMS Medical below, as the doctors are highly trained in their field and understand diving physiology.

SPUMS DIVE MEDICAL

Please note: SPUMS Dive Medical can only be used at accredited doctors. To find doctors accredited near you, please see the following link:
